Whirlwind Hits Him.

Weather Man Moore Swept Out.

Tropic Tornado That He Failed to Forecast Divorces Him from His Job.

President Wilson Gives a "Puff" that Even Demolished Cyclone Cellar.

The Same that Got Dr. Wiley are After Me," Says the Decapitated One.

BY A. P. NIGHT WIRE TO THE TIMES:

WASHINGTON. April 16.—[Exclusive Dispatch.] Will H. Moore, chief of the Weather Bureau since 1885, and a member of the Cleveland administration, was summarily removed this day by President Wilson. His authority recently had been set aside to take effect July 21, but after investigation of his alleged efforts to have Secretary of Agriculture in the present Cabinet, gave charges of malfeasance were preferred and the without withdrew his acceptance of nomination, dismissing Prof. Moore. Later he referred the subject to Department of Justice for investigation.

Secretary Houston of the Agricultural Department conferred with the cabinet before the removal of Mr. Moore was announced.

HOUSTON'S STATEMENT. The Secretary then issued the following statement:

"Shortly after the resignation and departure of the Weather Bureau submitted to the President by him, charges were preferred by him to the Secretary of Agriculture in the service were of no grave nature, and the Secretary of Agriculture

MILITANTS ARE MAULED.

Non-Militants in England Mitate Against Mischief-Makers.

BY CABLE AND A. P. TO THE TIMES: LONDON, April 16.—Suffragettes carrying sandwich boards advertising a militant meeting at Islington were attacked today by other women, who seized the boards and belabored the suffragettes with them. Hats were smashed and clothing torn.

Comes High.

TEN DOLLARS FOR LIGHT MEAL.

WEALTHY JAPANESE PAYS IT IN SACRAMENTO.

Walter Refuses to Serve Him But Proprietor Takes His Order—Rich Merchant from San Francisco Says State Is Making Mistake to Pass Alien Law.

BY DIRECT WIRE TO THE TIMES:

SACRAMENTO. April 16.—[Exclusive Dispatch.] K. Itasuda, said to be a wealthy Japanese merchant, ate three scrambled eggs, a roll and a cup of coffee in a Sacramento restaurant yesterday morning. It cost him \$16. The bill was paid.

Itasuda walked into the restaurant at 10 o'clock and called a waiter to his table. The waiter refused to serve the Japanese. Itasuda left the restaurant and returned when the proprietor came in.

"Will you serve me in this restaurant?" the Japanese asked.

"Under the law I can't refuse to serve an alien," the owner said. "It will cost you \$16 to eat here, though."

Itasuda said he would pay and the proprietor took his order and the food was set before him.

Itasuda said he came here from San Francisco to hear the debate on the alien land bill in the lower house.

"California legislators will make a mistake if they pass this law," said Itasuda.

Itasuda said he had money and owned considerable property in Naga-

SLY MOVE BY BRITAIN.

And Latin America Is Flattered.

London's Recognition of Huerta Fails to Keep Mexican Dollar at Par.

Yet Diplomacy Thinks John Bull Made a Fool of Uncle Sam.

Carranza Rebels Mobilizing Army of Seventy Thousand and Garcia Reports.

BY DIRECT WIRE TO THE TIMES:

WASHINGTON BUREAU OF THE TIMES. April 16.—[Exclusive Dispatch.] Does Great Britain's recognition of the Huerta government in Mexico indicate a purpose to disregard the paramount position of the United States in the Western Hemisphere?

This is the question many Latin-American diplomats are asking since Great Britain, by accrediting a new Ambassador to Mexico, recognized the Huerta government, which the Wilson government has not approved because it came into being as the result of mutiny and the violent and mysterious death of Francisco L. Madero, who was a prisoner.

The Mexican problem is probably the most difficult before the President and Secretary of State. Many American interests in Mexico have urged that recognition be immediately extended to the Huerta government, which may negotiate a loan which will enable it to suppress the revolution and restore order.

President Wilson has been disposed to withhold recognition until an indication of a new government can be selected. But he is told that either France or the United States in a revolt which the impoverished Huerta government finds difficult to suppress, no real election is possible.

On the other hand, recognition of the Huerta government, it is feared, will put a premium on revolution, intrigue and assassination in every other turbulent country.

FIFTY PER CENT PREMIUM FOR GOLD.

BY DIRECT WIRE TO THE TIMES:

MEXICO CITY. April 16.—[Exclusive Dispatch.] So acute has the financial situation become in Mexico that today 50 per cent premium is offered for gold. This morning agents of the Bank of Mexico were willing to exchange three dollars for one in gold. Prices of foodstuffs rapidly soared far above the reach of the poor, rising 20 per cent here in four hours today. Misery and everywhere discontent among the poorer classes is spreading. To head off any outbreaks in the poorer section of the city, it was announced tonight that the government would make a temporary loan of 20,000,000 pesos to relieve the situation.

That is not to kill President Huerta, recently discovered, was hatched by a band of Fulchists, was made plain today, when orders were issued for the arrest of Generals Garcia, Pena and Jimenez Gutierrez, leaders of the Fulchist party, but neither of them could be found.

A Spaniard who escaped from a mortuary jail was recognized at Coahuila, Mexico, to be with his wife and two children.

Members of society turned out all day yesterday to have a service of art treasures that were due to be sold in a fire in the home of a former consul to Sheffield, Eng.

The other day the Spanish consul said that the frost had ruined the cotton crop in the town and asked the authorities to provide against it.

Two Spaniards at the Consulate of Mexico City, who were to be married this day, soldiers fired on the crowd under orders from the Maderista Governor, Alamillo, and that forty persons were killed.

PACIFIC SLOW. A San Francisco woman, Justice of the Peace, yesterday after being held over for trial, was freed yesterday morning. She was in jail, and in a statement she said that she had not been given sufficient opportunity to defend herself.

The trial of the man, who was accused of shooting himself in the abdomen, was delayed to another day to give the woman time to defend herself.

The trial of the man, who was accused of shooting himself in the abdomen, was delayed to another day to give the woman time to defend herself.

Secretary McFall of the Department of Commerce has decided to employ more men in teaching the people of the United States the principles of conservation and labor to do.

A. P. NIGHT WIRE TO THE TIMES:

NEW ORLEANS. April 16.—Military and political leaders from all parts of the Mexican republic are arriving in New Orleans daily, most of them en route to Coahuila, to join Gov. Venustiano Carranza. Col. Silviano M. Garcia, former commander of the State of Zacatecas, who arrived yesterday, predicted that Carranza would be seated as President of Mexico by June 15.

Col. Garcia declared that Carranza, within a month, would be able to mobilize an army of 70,000 men, two-thirds of whom would remain on garrison duty throughout the Republic, 50,000 picked men engaged in the campaign against the capital.

He said Mexicans are aroused as never before, as a result of recent barbarities, and the effort to establish a military government "inevitably ends in disaster." He was dreamed of by the masses of Mexico, "The

the battleship Minnesota and Idaho yesterday from Philadelphia, to Mexico to take the place of the gunboat which had been sent to the South.

J. P. Morgan was yesterday elected a member of the New York Stock Exchange.

It was announced yesterday that the Southern National Committee will cut down the representation of the Southern States at the next Republican convention.

FOREIGN. At the request of the Foreign Office at Berlin, the French government has ordered an investigation of a case involving two women, declare they were insulted.

It was announced yesterday in Berlin that Germany is preparing to prohibit the frequency of duels in the German army, and has instructed officers to be more lenient in their treatment of offenders.

The law that Japan has been trying to enact was yesterday taken up in Paris, and may be the cause of many difficulties for the Japanese.

It was stated in court that the law will be introduced very soon, and that the market abroad is higher.

FINANCIAL. Experts aided the wharf in China in a considerable extent yesterday, and the news from Liverpool indicated that the market abroad is higher.

The British News Summary is intended to serve as a practical aid to help the reader digest the news from Liverpool, and to summarize the news of the world, as far as possible, in a condensed, concisely worded form.

In order to get the full benefit of the Times, thoroughly and completely, it is recommended that the reader refer to the British News Summary, as far as possible, in a condensed, concisely worded form.

A TRUCE IN THE BALKANS.

LONDON, April 16.—[Cable and A. P.] The truce in the Balkans has been arranged between the Bulgarian and Turkish commanders, according to a Constantinople dispatch to the Daily Telegraph.

Woman Judge Scores Women Voters.

Discouraged.

PETTICOATED JUSTICE JAILS MAN AND QUILTS.

BY A. P. NIGHT WIRE TO THE TIMES:

SAN FRANCISCO. April 16.—After one year in office, announcement is made today that Miss Clara A. Jess, the first woman appointed to the bench, has resigned. She is reported to have been born in Daly City, a suburb of San Francisco. Her duties were equivalent to those of the justice of the peace.

During her service she sentenced only one man to jail, and him for only one day, but he was Joseph F. Pankewicz, the Town Marshal, and he has retaliated with a suit in the Superior Court for \$20,000 damages.

"There is nothing in the emotions or impulses of man to prevent him from being as bad as any skin as man, but I doubt if they can stand the nervous strain of meeting the opposition they are sure to encounter, without the support of a man in the same position who would get from his friends such relief as I have given him with reference to serve a warrant on a friend who was accused of obtaining money under false pretenses."

"However, I have not reached any general conclusion. In my own case, I have resigned. That's all."

Crisis.

CONDITION OF POPE PIUS ALARMS THE CARDINALS.

ROMA, April 16.—The bluetongue is making the physicians today increasingly pessimistic. The evening bulletin was of a more optimistic tone, as it indicated that the temperature was normal and that there had been no recurrence of the usual night fever. It read: "His Holiness passed a quiet day without fever. This evening his temperature was 98 1/2. The catarrhal and bronchial affection is in the same condition as this morning."

The fact, however, that the bronchial affection has not been overcome detracts somewhat from the hopeful character of the report, as the continual paroxysms of coughing are maxing the strength of the patient, who already has been under a great strain.

The condition of albuminuria has reappeared and to relieve the kidneys has been given a diuretic.

DR. AMICUS REPORT.

Dr. Andres Amicis paid a visit to the Vatican at 11 o'clock tonight, and according to the announcement, found only slight elevation in the temperature and other conditions were satisfactory.

Cardinal Gibbons has cancelled all future engagements and will leave as soon as possible for a seaport town from which he can embark for Rome. He is to go to Genoa and later return to Rome with former Atty.-Gen. Charles A. Bonaparte, addressed a local convention of Catholic charities tonight.

POPE SHOWS CONCERN.

The Pope is extremely concerned at the trouble he gives to those around him, often expressing to them his deep attachment, especially those who treat him at night, repeatedly urging them to go to bed, and sometimes his insistence is so marked that in order to satisfy him they leave the room.

The Pope's love of music seems to have been accentuated by his illness, the Pontiff often asking for favorite hymns and chants, which seemed to soothe his restlessness and pain.

BISHOP DUFFY CONSECRATED.

CHEYENNE (Wyo.), April 16.—[Special Dispatch.] Bishop Duffy, rector of St. Mary's Cathedral here since 1894, was consecrated today bishop of the newly created Catholic diocese at Kearny, Neb.

PROTESTS MULTIPLE.

Within the past twenty-four hours scores of letters and telegrams have been received, and a dozen attorneys and capitalists have made their appearance, all protesting against a law that would be injurious to the present and future investments of the foreign syndicates of London, Paris and Berlin.

It is pointed out that the stocks of

TO PILLAGE ENTERPRISE BY COMPENSATION BILL.

Johnson Gang, After Bankrupting State, Would Bankrupt Private Industry.

A Measure to Paralyze Production in California and Perpetuate the Strangle-Hold of the State Political Machine Arouses Intense Indignation in City and Country—Boldest Attempt Yet Made.

BY LOU GUERNKEY.

ACRAMENTO. April 16.—[Exclusive Dispatch.] Indignation at the so-called "Workmen's Compensation Bill," which would paralyze production and industry in California, and which has been thoroughly exposed by The Times, has become State-wide. The Johnson administration plan to create an enormous political machine composed of faithful "battlers for Johnson," at the expense of the taxpayers of California is condemned on every hand.

Senator Boynton, "Progressive" leader, who offered the vicious concoction, admits that the bill is not based on any popular demand whatever. He offered it, he says, at the request of the industrial accident board. It was concocted by that board for the purpose of making its own job permanent and creating a political machine for the perpetuation of the present Johnson administration.

ITS PROPER NAME.

Its proper name is not a workmen's compensation bill, but a bill for compensating administration heelers from the public treasury.

So far as workmen are concerned, the law if enacted would be certain to deprive a multitude of workmen of employment of any kind, for the bill involves risks which no small employer can afford to take and which none will take who can avoid it.

It creates powers of visitation and arbitrary "regulation," which are sure to breed corruption. It is a direct invitation to official hold-ups.

It is an administration bill pure and simple. Being such there is hardly a soul in the Legislature who dares say a word against it. Senator Wright of San Diego has submitted a minority report, it being the only opposition to the inquiry which has thus far showed itself in the Legislature.

SENATOR WRIGHT'S STATEMENT.

In speaking of the bill tonight, Senator Wright said: "The effect of the bill, should it become a law, on the industries of California would be calamitous. It involves risks which no small manufacturers could afford to take. A number of manufacturers and business men have told me they will never take the risk provided by the bill, but will close down their plants and import the commodities which they sell. It would hamper industry at every turn and throttle legitimate business. The bill will go through with but little opposition unless the business men of the State get busy with the legislators."

It is not merely the proposed law which the small manufacturer, farmer and householders fear. It is the host of official legislation.

Bowdlerized.

LOUD EUROPEAN PROTEST COMPLICATES ALIEN ISSUE.

Representatives of Foreign Millions Invested in California Exert Enormous Pressure at Sacramento to Kill Land Measure that Would Imperil Their Holdings—Gov. Johnson Refuses to Declare Himself.

BY A. P. NIGHT WIRE TO THE TIMES:

ACRAMENTO. April 16.—Not the elimination of the Japanese farmers, but the probable effect of the proposed alien land law on the millions of European capital invested in the State, is now the principal issue involved in the bills to restrict the rights of foreigners in California, one of which was passed yesterday by the Assembly.

The point of protest that has arisen from representatives of English and continental syndicates, the original object of the law has been obscured, and a far stronger influence than that represented by the formal complaints of the Japanese government is being brought to bear in an effort to kill

The Industrial Paralysis Bill Annotated for the Tax Payer.

SACRAMENTO, April 16.—That the so-called workmen's compensation bill contemplates a new million-dollar machine for Gov. Johnson to manage is indicated by the following taken from the prepared act which makes clear that Johnson means to use nine dollars to administer the delivery of every one dollar paid out in the form and shape of workmen's compensation. Here is the text:

"The sum of \$415,120 is hereby appropriated out of money in the State treasury, not otherwise appropriated, to the Industrial Accident Commission in carrying out the purposes of this act."

"The Industrial Accident Commis-

sion shall have further power and au-

thority—"

IN CONFIDENCE CARRUTHERS.

Los Angeles Woman Dies and Her Husband After Being Divorced Four Years.

BY DIRECT WIRE TO THE TIMES.

NEW YORK BUREAU OF THE TIMES April 16.—[Exclusive Dispatch.] Miss Gordon, the actress, and her husband, Capt. Harry D. de Poer Beresford, are reconciled today after a separation of four years. The papers in her divorce suit have been burners.

Miss Gordon attributes their marital difficulties to her loss of weight.

"I presented myself partly to biome for our troubles," she said today.

"My life is wrapped up in my work,

and Capt. Beresford was not willing

at first that I continue with it."

As soon as my engagement in vaudeville is over, I will return to England with him. But I shall come back again in the fall. I hope I can persuade Capt. Beresford to return with me.

LETTER LEADS TO SUICIDE.

Los Angeles Woman Dies and Her Husband After Being Divorced Four Years.

BY DIRECT WIRE TO THE TIMES.

FAIRBANKS (Alaska) April 16.—[Exclusive Dispatch.] Advice dated March 26 say the finding of a note by the body of Lola Elam, who died in the previous Saturday with a bullet hole in her head, revealed a tragedy touchingly pitiful. The note said her true name was Mrs. J. L. Elam, and gave instructions to keep information of the life she had led from her friends in love.

Letters in the cabin revealed that her husband had died in Los Angeles January 31. From the time these letters were received she failed to brood and then the delegates were called in alphabetical order and divided into three delegations thus:

Friends say she married Elam when he was healthy and able to care for her. He was taken ill and to provide money with which to secure medical attention for her, she sold all her possessions and came to Alaska. Her death came as a blow to her and brooding over it led to suicide.

TO SEGREGATE FARM LANDS.

Agricultural Department in Session in Ogden Takes Action of Importance to Homesteaders.

BY A. P. NIGHT WIRE TO THE TIMES.

OGDEN (Utah) April 16.—During today's session of the conference of the representatives of the agricultural department, on the problem of locating agricultural tracts in national forests, plans were perfected to restore all farming lands to homestead entry. The law provides that agricultural land shall be segregated from forest land but may be put to higher use of agriculture. It also provides that lands more valuable for the timber on them shall not be opened to homesteading. In other words, before agricultural lands shall be opened to entry, the Agricultural Department must determine them to be "chiefly valuable for agriculture."

The decision as to classification is to be based upon climate, topography and soil, and whether these are favorable to agriculture to be considered for each locality.

Previously it has been necessary for each prospective settler to seek out his own little parcel of land and ask for an examination. It has been determined that definite areas have now been classified. The reports will be available to the public, and the various agricultural tracts

will be removed for agriculture.

Homesteaders who had almost all-night meetings to discuss the classification of the reached them.

Homesteaders who had almost all-night meetings to discuss the classification of the reached them.

Evidence concerning the trial of the men with the rifle Chairman Ellis.

THE TIME TO ACT IS NOW--

Do you realize the wonderful opportunity that close-in acreage presents today for investment? Do you know that there is only a limited amount of good, close-in land left?

You cannot make more, and you can never again buy at the prices quoted today.

Last week one syndicate of Canadians purchased over \$250,000 worth of close-in foothill lands. THEY realize what the next three years will pile up for the investor in these close-in acres.

They see Los Angeles spread out in an enormous circle, reaching into the rich adjoining valleys to find room for the enormous influx of home-seekers daily

arriving at their gates. And what will it be, in 1914-15, with the opening of the Panama Canal and two great fairs, one to the north and one to the south of us?

Acreage TODAY is the greatest of investment opportunities.

Thousands upon thousands of the great hordes that will pour into this land from Europe are agriculturists. They will want land. The one, five and ten-acre tracts near the city will pile up profits undreamed of now. Single acres should and will sell for \$1000 up in 1915. Get in now—buy 5 or 10 acres at today's rock-bottom acreage prices and HOLD IT.

MARIAN ACRES

Fine Soil—Water—No hardpan, no alkali—all good—Electric Railroad and Boulevard Direct to Los Angeles

As Low As \$375 an Acre On Easy Terms

Do not delay. Opportunity never returns. This is the last great close-in valley land to be subdivided into 5 and 10-acre tracts. Do not sit idly by and dream. Come in and let us show you these fertile 5 and 10-acre farms right at the gates of the fastest growing city in the world. You can plant vegetables and fruit and make splendid profits while you are holding for the big rush. Come in and make arrangements to go out with us and see these lands. Our machines are at your service.

5c A Day for As Much Insurance As You Want!

That is pretty cheap protection, isn't it? Yet there is no limit to its efficiency. When \$2.50 will rent a generous sized safe deposit box here for three hundred and sixty-five days, the man or woman who takes chances on having valuable papers or jewelry stolen or burned is not living up to all of his opportunities. A burglary and a fire insurance policy will reimburse you for the money value of your loss, but it cannot reimburse you for the loss of a treasured heirloom, or for the inconvenience of making your claim and getting your adjustment, or for the worry that you experience before you know that you're going to get all that you think is coming to you. Five-sevenths of a cent a day and with it safety, assurance, insurance, protection against fire, water, quake and the baser instincts of human nature.

LOVES A TYPIST
COMMITTS SUICIDE.

SAN FRANCISCO DENTIST TAKES HIS OWN LIFE.

Shoots Himself in His Office in Presence of His Stenographer Whom He Could Not Marry Because Wife Wouldn't Permit Him to Get a Divorce.

(By A. F. NIGHT WIRE TO THE TIMES)
SAN FRANCISCO, April 15.—Dr. Arthur W. Miniker, a well-known dentist, committed suicide this afternoon in his office, in the presence of Miss Florence Williams, a stenographer, who was both his friend and patient, by shooting himself in the abdomen. He died on the way to a hospital.

Miss Williams was so hysterical that she could give no intelligent account of what had happened. The only explanation the police could get from her was:

"The doctor had been drinking."

Hearing shot and smoke, the janitor and superintendent of the building burst into Dr. Miniker's office and found him on the floor, the girl kneeling beside him, her arms about him, calling him endearingly in a voice of mounting despair in tearing her away from him.

Dr. Miniker had been separated from his wife for about a year. In his talk today with Miss Williams, he told her, she admitted to the police, he could not marry her because his wife would not permit him a divorce.

The committee probably will and the hearing Friday.

Doctor Declares Statesman Seemed Militant.

(By A. F. NIGHT WIRE TO THE TIMES)
WASHINGTON, April 16.—Police captains who commanded detachments on Pennsylvania avenue, March 3, at the time of the suffragette parade, rallied to the defense of their department today when the Senate subcommittee resumed hearing of the charges of police negligence made by the women marchers.

Big Captain, a lieutenant and two sergeants who practically the same story in their defense, said Edward Sylvester, their chief, did everything possible to preserve order and protect the marchers, and the officers and men under him did their best to support him.

When Captain Sylvester, who commanded a section of the avenue near Seventh street, where the trouble started, suggested that he might have handled the crowd better, some of the mounted police declared that he had not.

Dr. A. M. Kirkham, an intern from the Emergency Hospital, told of being stopped on the avenue by a man who stepped out of the line of marchers and waved a cane in the driver's face. He said he learned the next day that it was Senator Poindexter.

The committee probably will and the hearing Friday.

DROP COFFEE TRUST SUIT.

Atty.-Gen. McKeynolds Convinced New York Consignment Has Been Legally Sold.

(By A. F. NIGHT WIRE TO THE TIMES)

WASHINGTON, April 16.—The anti-trust suit against the Brazilian coffee trust will be dismissed within a few days by Atty.-Gen. McKeynolds as a result of definite assurances from the Brazilian government that the 200,000 bags of coffee, valued at \$10,000,000, now in New York, have been sold to bona-fide purchasers.

Atty.-Gen. McKeynolds said today that the United States would accept Brazil's assurances that the coffee was no longer in control of the coffee importation committee. Brazil declares the coffee has sold to seventy-eight roasters in thirty-four cities of twenty American States.

Had the compromise not been reached, the committee would have urged the United States government to seize the coffee under a new law enacted by Congress as a direct result of the coffee trust.

LEWIS GREETS WILSON.

Illinois Pink-Whiskered Senator and Dr. Mary Walker Call on the President.

(By A. F. NIGHT WIRE TO THE TIMES)

WASHINGTON, April 16.—Col. James Hamilton Lewis, Senator-elect from Illinois, called today on President Wilson to pay his respects. Representative Francis Burton Harrison of New York urged the appointment of Justice J. G. Oliver Lynch, national committee man from Minnesota, to be third assistant Secretary of State. Confirmation is expected at the executive session of the Senate Thursday.

The committee also recommended confirmation of John Bassett Moore to be counsellor of the State Department, and John E. Osborne of Wyoming as first assistant Secretary of State.

UNCLE SAM TO USE "MOVIES."

Secretary Redfield Decides to Employ Them to Show People What Department of Commerce Is Doing.

(By A. F. NIGHT WIRE TO THE TIMES)

OAKLAND (Cal.), April 16.—Mrs. J. W. Hahn of this city and her daughter-in-law, Mrs. H. F. Hahn of San Francisco, were run down today by an automobile driven by Miss L. Cain, May 7. Mrs. Hahn's right arm was fractured and she may die. Her companion was seriously injured. Miss Cain was taken to her home in a hysterical condition.

NEEDS LINOTYPE MEN.

SACRAMENTO (Cal.), April 16.—State Printer Richardson says his department is handicapped by lack of enough linotype machine operators. He cannot keep up with the work entailed by the legislative session unless he can man more machines. He needs six or eight more men for the purpose.

RUN DOWN BY FEMALE DRIVER TWO WOMEN HURT BY AUTO.

(By A. F. NIGHT WIRE TO THE TIMES)

OAKLAND (Cal.), April 16.—Mrs. J. W. Hahn of this city and her daughter-in-law, Mrs. H. F. Hahn of San Francisco, were run down today by an automobile driven by Miss L. Cain, May 7. Mrs. Hahn's right arm was fractured and she may die. Her companion was seriously injured. Miss Cain was taken to her home in a hysterical condition.

SECRETARY REDFIELD DECIDES TO EMPLOY THEM TO SHOW PEOPLE WHAT DEPARTMENT OF COMMERCE IS DOING.

(By A. F. NIGHT WIRE TO THE TIMES)

WASHINGTON, April 16.—Moving picture films are placed by the Interstate Commerce Commission in the category of dangerous and inflammable articles, and shippers are hereafter required to pack them in "spark-proof metal cases, lined with paper and tied with wooden or fiber board boxes and cartons."

Some other rulings today were equally important to the general public.

It was held unlawful for a telegraph company to pay the firm or house in whose building a telegraph office is located, any commission on its own business.

Nurses may not be considered as members of the "team" of railroad employees who are entitled, under the law, to free transportation.

CONNECTICUT BANK CLOSED.

WASHINGTON, April 16.—The First National Bank of Norwich, Ct., was closed today by order of its directors and National Bank Examiner N. S. Dean, has been placed in charge.

Advices to the Comptroller of the Currency say that the bank was doing

more than half of the relations of its president with a failed commercial com-

pany.

\$100,000,000

To Be Spent in IMPROVEMENTS—AT ONCE—
in Just One Section of

CUDAHY CITY

THIS is but a fraction of the total amount to be spent in improvements in this promising new city during the next few months. The present contract is only for that new district recently opened up by the extension of the car line—probably the most popular piece of property ever placed on the Los Angeles market. Other contracts, work on some of which has already started, will easily bring the first year's improvements up to within the “million mark.” The latest section “marked for improvement” in “Cudahy City” is the only part of the great Cudahy Ranch not covered with walnut trees. For several blocks in every direction from the new terminus of the “Cudahy City-Huntington Park car line” the lots are all covered with either apple, peach or pear trees—all bearing and in full bloom now! Where can the homeseeker secure such a selection of trees, not only without extra cost, but—for actually less money, and on easier terms—without interest—than you must pay for barren lots in small, obscure tracts, miles farther out? Homeseekers and investors, think of these prices. In the most promising new city in Southern California—and in the only new city with a straight 5 cent car fare to the “big city.”

Perfect
Home Sites

With All Improvements, Covered
with Walnut, Peach, Pear
or Apple Trees

ONLY \$550 AND UP

On \$10.00
Monthly Payments

Without Interest for
Two Full Years

You know that it is absolutely impossible to buy “any kind of a lot” within the 5 cent fare, at these prices and terms. And when you consider that it is right in the heart of a promising new city, like “Cudahy City” even the most skeptical must readily appreciate the really wonderful values and tremendous profits to be made. But the opportunity is only for a short time—

PRICES OF ALL LOTS IN “CUDAHY CITY” ADVANCE SUNDAY, APRIL 20th

TO SEE CUDAHY CITY—Until the Car Line is rerouted, which will be very soon, take the “Huntington Park” car with front and rear signs, “Cudahy City,” on Seventh (7th) Street, anywhere east of Spring Street, and ride to end of line. “Cudahy City” office right there—Always Open.

Practical Suits \$18.00 Up

The Suits we have to show today at popular price are practical enough for the most conservative dresser, yet they lack none of the season's style touches. Of particular importance are the materials and the tailoring. Cutaway styles, Norfolks and plain tailored models are here in men's fancy suiting, plain, Balkan and navy blues, black-and-white Shepherd checks, etc. We doubt if these Suits can be matched near these prices—\$18.00, \$22.50, \$25.00 and up.

Gorgeous Trimmings

Never before was Fashion so liberal with trimming novelties; never has she shown so many brilliant colors and rich designs. These, and others, get first showing to-morrow.

Vestings and Bands, 2 to 5 inches wide in the whole range of Balkan colors.

Loops and button effects of silk cord, in variegated Balkan colors.

Dainty little Rose Buds and other floral effects of silk combined with delicate sprays of green.

Washable Rattine Bands of all widths, in the most brilliant hues for trimming washable summer frocks.

Taffeta or Messaline Petticoats
New Models—\$2.75 and \$3.75

We've never seen better Petticoats at the price—never as good, all things considered.

They are made of soft, clinging Messaline or good waving Chiffon Taffeta. Some have accordion plaited, some tucked flounces. Nearly every thinkable color is here to start with. Two grades, \$2.75 and \$3.75.

A New Motor Veil—\$1.75

The handiest, most comfortable Veil for motoring ever invented is here for your approval this week. Just large enough to cover a cap or small motor hat.

18 inches wide, 1½ yards long, buttons snugly over the head. Made of a good quality chiffon cloth, all washable colors, \$1.75 each.

Complete Stock of Ginghams

Few people will be able to pick the imported from the domestic Ginghams this season. This line of American Zephyrs is especially pretty.

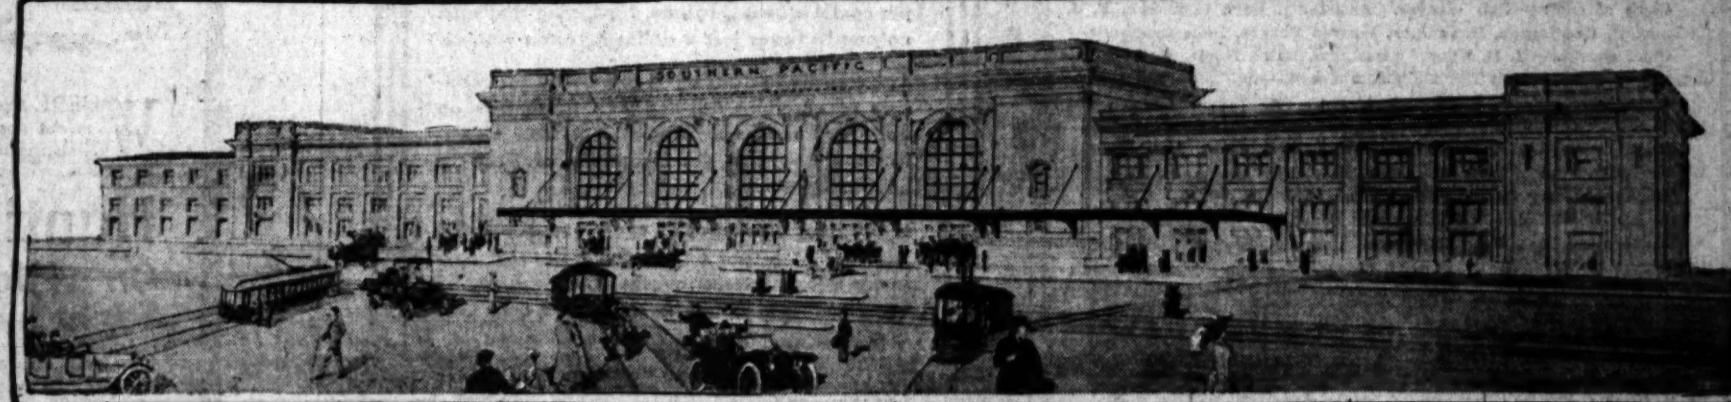

Plaids, checks, stripes and plain colors of every shade and color combination. 32-inch, 15c.

Genuine Imported Ginghams in a complete color line of checks, stripes and plaids, for a house or street dress, children's wear, etc. 32-inch, 25c.

318-320-322 SOUTH BROADWAY

MERRY MAY DAY FOR THE POOR LITTLE ONES.

IN RESPONSE to numerous requests The Times will organize for May Day the third annual joy ride for the orphans and poor children of Los Angeles. Hundreds of these little ones will be taken on an outing and picnic through the kind offices of volunteering owners of automobiles, men and women. The full details of the plan will soon be announced. Nothing will be left undone to make a bright May Day for children whom fortune has not favored.

Final design of Southern Pacific station projected on the site of the old Arcade.

This perspective was completed yesterday by Architects Parkinson & Bergstrom and contractors are to be asked to submit figures on construction at once.

Touchy Issue.He Says Alexander Himself
Should Get Out.

LARGE CLOTHING THEFTS.

Two Arrests Made in Connection
With Wholesale Stealing—Police
Say Prisoner Confesses.

The arrest of two young clothing clerks yesterday, one, Louis Lefebvre, here, and one, M. M. Jones, in San Francisco, is said to have brought to light wholesale thefts from clothing merchants of this city.

Several thousand dollars worth of men's clothing and hats have been taken during the past year, according to the alleged confession of Lefebvre, who says his companion, Jones, arrested in San Francisco, was his partner in crime.

More than \$1000 worth of the goods has been recovered through the efforts of Detective Murphy here.

Two arrests were made yesterday upon the representations of Z. W. St. Pierre of St. Pierre Brothers, No. 413 South Spring street and G. E. Logan, No. 337 South Spring street, dealers in men's clothing.

A trunk containing several hundred dollars worth of clothing was found in Lefebvre's room, No. 1515 West Fifth street, and descriptions of goods found in the possession of Jones at San Francisco, said to fit that of property taken here.

**BULLETS, KIDNAPING,
DIVORCE AND ARRESTS.**

Figures in a remarkable mixup.

It is asserted to have commenced with a bit of sensational gunplay in a street and wound up yesterday with the filing of a divorce action, using a co-respondent, a kidnaping and two arrests. At the top is Bert Campbell, Dolia Campbell and Mrs. Clara Campbell. Below are Harry Cleveland Schultz and Basil Proloff.

HARRY six times with a knife, used as target for eight bullets from an automatic pistol; separated his wife and arrested for kidnaping her. The record shows the peace is in the record ever since September by Albert Campbell, who with his attorney, Schultz, was arrested yesterday with kidnaping his wife.

The two men were in University Court, Schultz on his own recognition and his client furnishing \$100.

Campbell and his attorney, in Judge Frederickson and later to the University Court.

Mrs. Clara May Campbell, the wife, says in her petition that her husband and Schultz, the attorney, came to her mother's home and forcibly took possession of the child. Schultz himself is not entirely new to domestic difficulties, having been previously sued for divorce, setting forth in his petition the alleged fact that his five sisters-in-law constantly told his wife how to manage him.

As a counter move in the domestic tangle which apparently has disrupted the Campbell household, Campbell filed a suit for divorce yesterday naming Basil Proloff, a grocer, as co-respondent. According to the allegations of the divorce petition Proloff has succeeded Campbell in the affections of Mrs. Campbell.

The couple separated in September of last year and following an encounter with Proloff, when he attempted to stab him with a knife and subsequently shot at several times by his alleged rival, the husband lost track of his wife and child and only discovered their whereabouts Tuesday through the efforts of the Chain Detective Agency, one of whose operatives went with him in the automobile when possession of the child was secured.

Campbell says that since the advent of Proloff his wife has refused to have anything to do with him and that her actions at all times have been influenced by his rival's wishes. He asks for the custody of his child and says that he will fight to retain it since being successful in his long search.

Following this afternoon both Campbell and Schultz were arrested and taken before Police Court.

NOT BAD DAY AFTER.

Friendship Dinner at Los Angeles Club Good Even Next Evening—Dining-Room Crowded.

The man is held at Central Police Station pending a further investigation into the schemes whereby he is said to have fleeced numerous victims.

One of the most unusual operations according to the detectives was selling chances on a raffle where he pretended to raffle off a five-acre orange grove near Redlands.

SOOTHES AND HEALS

Hyomei Medicates the Air You Breathe and Gives Quick Relief in Catarrhal Troubles.

Be wise in time and use Hyomei at the first warning of catarrhal troubles.

Do not let the disease extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then downward until the lungs are reached and you are in danger of pneumonia.

Hyomei will relieve all catarrhal forms and stages of catarrh. It is so uniformly successful in this common yet dangerous disease that it is always sold on money back if not benefited.

There is no other treatment for catarrh than is like Hyomei or just as good. None can take its place, none give such quick and sure relief and at so little cost. Its medication is breathed through a pocket inhaler that comes with every outfit, thus reaching the most remote cells of the air passages, killing the catarrhal germs and soothing and healing the irritated mucous membranes.

Begin the use of Hyomei today and you will soon find that the offensive breath, the droppings into the throat, the discharge from the nose, sniffing and all other symptoms of catarrh are overcome. The complete outfit costs but \$1.00. Extra bottles of liquid, if later needed, 50 cents at druggists everywhere.—[Advertisement].

Mayor Wants Scalp.

(Continued from First Page.)

their session of Tuesday, April 15, 1913.

"Your utterances, voiced and written in the bond campaign which closed yesterday with the counting of the ballots, revealed that you are entirely out of harmony with the present municipal administration.

In view of the fact that a majority of the voters in your city do not coincide with your views, they displayed their opinion of your argument in their ballots. I suggest that you tender your resignation, to take effect without unnecessary delay.

"Please inform me soon as possible of your intention."

FORCING AN ISSUE

Wheeler refused to state last evening what action he will take, but it is understood that some of his friends have urged him to refuse to resign and thus force the members of the City Council to do on record, if they vote to accept the Mayor's offer, a dismissal of the commissioners because he dares to express his own sentiments.

It is probable this will be the attitude taken by Wheeler, and the Mayor will be forced to take some summary action or recede from his position. The Mayor in his demand for Wheeler's resignation makes the point that the steel resolution was "adopted by the Council." This is shown by the record to be incorrect. It was sent to the Mayor for his consideration without comment other than the declarations made by Councilman Schultz, who would not be a party to any action that would condemn a man without his having had a fair hearing.

Wheeler said yesterday that he is sure the resolution would not have been introduced by the Councilman had a full and fair understanding of the situation that led to the issuance of the Wheeler letter, and that he sure the Mayor did not realize that the Council had not adopted the report, but had sent it simply for consideration.

HOW ABOUT OTHERS?

"If I am to be dismissed from public service because I have dared to express my honest convictions when they oppose the ideals held by the Mayor, that about others?" asked Wheeler yesterday. "How about Chief Engineer Mulholland and how about members of the Council who have stood by their convictions, even when

they disagreed with the opinions of the Mayor?

"If the Mayor's logic is correct wherefore, he concluded that I should remain here, many of my voters do not coincide with my views, then how about the Mayor himself, in the light of the vote given by the people a short time ago? In view of this, if the Mayor is proper, the Mayor himself should resign at once, as the people voted for a calling of an election of new officials."

Should Wheeler decide to refuse to resign, the Mayor will resign and be dismissed, the word will be out to other members of the Public Utilities Commission, as Fouleau resigned last week, and started on a trip around the world, while remaining member, Martin Belknap, could be unable to transact business alone, and all work in this important commission would be at a standstill until the Mayor could secure the appointment and confirmation of a new member. The Mayor stated last night that he had no one definitely in mind for the place. As the position of president of this commission carries a salary of \$400 a month, it may not be so difficult to find a competent business man to fill it as has been the case with other commissions where services are donated.

CONFESSOR ARRESTED.

VENICE, April 14.—Through the efforts of Chief of Police Lingo, Mark Edmundson, a confessor, of the Missouri State Penitentiary, was arrested yesterday morning at Springfield, Mo., on a charge of murder. Edmundson, who is thought to be mentally deranged, for months kept a boot-black stand here, and was surrounded by local police by telling them that he was a murderer and wanted to go back to Springfield to answer for killing a negro in a quarrel. But the Springfield police at first allowed that he did not want Edmundson, and the police here released him. The day after he was released word was received from the Missouri city that a mistake had been made and that Edmundson had been arrested for murder. But he escaped capture until today, when Chief Lingo pointed him out to Deputy Sheriff Wright on

LOS ANGELES (Loco Ahng-hay-lais)

Entered at the Postoffice as mail matter of Class II.

BREAKING THE RULE.
A Porterville man fainted when he was refused a marriage license to a girl of 16. No wonder Shakespeare said that faint heart never won fair lady.

LET THE PEOPLE RULE.
Los Angeles citizens are disposed to treat public finances as discreetly as they would their own private affairs. This is the only way for a city to remain solvent.

GRATE BEAUTY.
San Joaquin Valley has had its heaviest rain for three years. Its thousands of acres of poppies and purple lupin at this time make it one of the show places of the world.

SHTUTTING THEM OUT.
The War Department is tired of keeping open house on the Arizona border for Federal refugees who are run out of Mexico by the rebels. They might get relief by stopping the war.

WON'T BUT LITTLE.
If the Mayor signs the municipal market ordinance it will be operative in May. Perhaps a thoroughly discredited city administration will then be willing to sell out at a good deal less than cost.

NEW LIGHT.
We see that Mexico is rejoicing in the activities of a new brigand. His name is Herrera and he has 400 followers. We hope he is a better bandit than his local namesake used to be a prize fighter.

FREE CATTLE.
Representative Logue from Pennsylvania asserts that the placing of steel on the free list will reduce the wages of his constituents who make steel; that reduced wages should be accompanied by a reduction in the price of beef and mutton and therefore he insisted that cattle and sheep should be placed on the free list.

But the Texans, who are eager for free steel, are not eager for free cattle, even as the men from Maine and Washington, who want free lemons, do not want free lumber, and as the Louisianians, who want free flour, do not want free sugar.

HIGH TARIFF.
A Roumanian, not liking Austria, discriminates against her in tariff duties. A duty of \$120 is levied on 200 pounds of shoes, or about 60 cents per pound. The Austrian shoe manufacturers avoid this exaction by first sending their goods to Holland. There they are naturalized as Dutch products, and so forwarded to Roumania. The enormous cost of the long railway journey, the duty in Holland and the duty at the Roumanian frontier on Holland shoes do not together amount to so much as the duty demanded of Austrian goods imported directly by the Roumanians.

HATPIN LAW.
Instead of forbidding the wearing of patent leather shoes by children attending school, and favoring a law to appoint a board of commissioners at so much "per cent" to superintend the sterilization of razors in barber shops, Holy Hiram's Legislature might enact a "hatpin law," such as Gov. Foss of Massachusetts has signed. The law requires a safety device to be worn over the point of a hatpin which protrudes from the crown of the hat more than one-half-inch. Failed to comply with the law may be punished by a fine not exceeding \$100. Give us a hatpin law, gentleman, and then when a fellow wishes to place his arm around the neck of the girl and the girl is willing to have it placed there, he will not be deterred through apprehension of the antics of a militant hatpin.

HILL LICENSING WRITERS.
It need not be a matter of surprise that an Illinois Legislature which elected pink-whiskered Ham Lewis a United States Senator, should beguile the tedium of its legislative existence by passing a few hilarious and frisky laws.

It has under consideration a bill to discriminate of public men. It attacks the sources of misinformation in their lair, it prevents the publication of libels by sterilizing the brains and consciences of newspaper writers. Every writer in any capacity, whether editorial, reportorial, correspondorial, telephatorial, correspondorial or postatorial must be examined and obtain a license, without which he and the proprietors of the newspaper that employs him will be fined \$25 to \$100 and enjoy six months' incarceration in a dungeon cell.

The license once obtained will be revocable for lie, trifling causes. The editor or reporter must not indulge in lies, either campaign falsification or robbing of the straight, old-fashioned kind. He must not steal. He must not do anything that might make it necessary for him to marry. He cannot obtain a license unless he can show that he has a good moral character, and has had an apprenticeship of four years on a reputable paper.

If such a law should be enacted by Holy Hiram's California Legislature what an oppression it would be of the boys on the staffs of our steamed Progressive contemporaries. Whatever reductions a stingy management might make in their honoraria, and, however upright their conduct as men and brethren, they would be Ixions bound to the degradation and slavery which they now endure. They could not find employment elsewhere, for they could not prove that they had previously been employed on a reputable paper.

RESIGN, GRAHAM, RESIGN!
The Times, of yesterday called on Commissioner Graham of the Public Service Board to resign and today it repeats and emphasizes the demand.

Mayor Alexander has asked for the resignation of President Wheeler of the Board of Public Utilities, because Mr. Wheeler freely expressed his opinion about the power bonds; but the scalp the Mayor should really go for is Graham's.

Graham will betray a shameless lack of self-respect if he fails to tender his resignation in the face of the popular verdict against him on Tuesday. The people's repudiation of his "high line" scheme by a vote of 2 to 1 was a vote of want of confidence that he cannot ignore. The only decent thing for him to do is to resign today.

By the mere launching of such a project of "audacious rapacity" and "insatiable greed," as Engineer Mulholland characterized it, Graham proved his unfitness for his job. He never should have been appointed. But now the people have voiced their opinion of him and his scheme and left him no alternative but to get out.

"Stay not on the order of your going, Graham, but go!" The voters of Los Angeles have sent you this ultimatum. The Times again calls upon you to resign, basing its demand on the decision of the people and the demerits of your case. Resign, Graham, resign!

FALSE COLORS—THE "WORKMAN'S COMPENSATION" BILL.

More than once has The Times called attention to that freak of freaks dubbed the "Workman's Compensation Act," introduced as an administration measure in the crazy-house Legislature now sitting at Sacramento. It is not a "workman's compensation act," but a job-hunter's compensation act. The lion's share of the appropriation it carried would go to commissioners, managers, "actuaries," and such office-holders, and where the workingman would get anything out of this elaborate bureau is not clear. A careful summary of the mischievous provisions of this extraordinary measure, with an explanation of its workings, is given in another part of this issue of The Times.

As The Times has said before, the bill is paralyzing in its sweep. It extends not only to large and small industries and shops and to farmers, mechanics or others employing one or two persons, but to every household who employs help of any kind, and compels paying compensation on a fixed and lavish scale for all injuries to employees regardless of cause or blame, and, in case of total disability or death, pensions to the injured or dependents which may exceed the net income of employer. If a servant girl should by some fault of her own be injured for life, her employer must needs support her, regardless of the fact that he or she was not at all to blame.

If workingmen themselves contribute by carelessness or drunkenness to accidents they are not asked to contribute 1 cent pay for damage which they themselves create. Without any reliable data as a basis, the bill proposes to put the State itself into the insurance business as a "regulator" of the insurance companies. The board to which it is proposed to intrust the administration of the act knows nothing about insurance of any kind. This board is authorized by the bill to create and appoint an unlimited number of agents or employees and to fix their salaries at any rate they please. This feature of the bill gives an opportunity to saddle on the State the most beautiful wide-open political machine ever devised. The commissioners themselves are to receive \$2600 a year and are to be "permanent officials," not removable by the Governor or anybody else.

In a strong editorial calling attention to and fitly characterizing the pernicious features of the measure, the San Francisco Chronicle says:

"The provisions of the act which this tremendous political machine is to administer are such as to compass the utter financial ruin of any small employer, farmer or employer of domestic service who should be so unfortunate as to employ a stupid, drunken or careless person."

"For 'negligence' of the employee counts for nothing. His compensation is the same as if he were the most careful person in the world, while any negligence of the employer is heavily penalized."

"And it is not merely the owner of an establishment who is liable to ruin for the bill expressly names as liable to the injured employee every officer, agent, manager, representative or other person having control or custody of any employment, place of employment or of any employee."

"That covers the whole of them. Some of the lot will probably be found responsible."

"And the term employee is equally liberally construed, for the employer is liable for injury not only to actual employees, but to any chance 'requirer,' who is defined as any person who happens around 'under circumstances which render him other than a trespasser.'

"The commission's power over employees and places of employment is absolutely unlimited. It or any of its agents may enter any man's house where a servant is employed and compel the employer to do anything."

"That is a direct invitation to graft by every hold-up man who can get a job as an inspector. If you pay him you get off easy. If you don't pay him you get it hard."

And in addition to these preposterous provisions the bill authorizes the commissioners to start a museum in every city in the State, for the alleged exhibition of safety appliances, to hire a hall, employ janitors and attendants and open "lecture bureaus"—what snape for fellows like Harriman and Wolfe!

The crowning audacity of the bill is the provision forbidding the Supreme Court to declare it unconstitutional, although it clearly is unconstitutional. It is a bill to cinch and ruin small employers and harass great industries. The small employers would suffer worst; the act would simply drive them out of business. The Times earnestly advises them to bring to bear all the influence they can upon any sensible and independent legislators there may be at Sacramento to aid in preventing the enactment of this proposed enormity, the latest throttle devised by the labor-unions gone mad of San Francisco. Such a monstrosity could have been born nowhere else, and the successes of the world in all who produced it.

THE VICE OF SOCIALISM.
The love of property is an instinct that is fundamental in human nature from the boy that exists in the possession of his top, his kite and his marbles to Rockefeller with his thousand millions of dollars, and not all the teachings of Marx and Prudhomme can eradicate the instinct. The teachers of Socialism are far from being indifferent to the profits of inculcating it. Gompers has large property holdings in Chicago and is alleged, by those who claim to know the facts, to be a millionaire. Darrow did not disdain \$200,000, nor did Job Harriman decline \$15,000 for defending the McNamara's and letting those "poor boys" plead guilty.

The work of the world has been done

Driven Hence.

THE GOKTIK VIADUCT.

A Milestone of American Achievement in Foreign Bridge-Building.

BY LEWIS R. FREEMAN.
Height by height, the United States is scaling one pinnacle of pre-eminence after another in its climb toward world-supremacy in foreign trade. One after the other, American typewriters and sewing machines, agricultural, mining and electrical machinery have won their way to unassailable positions in every corner of the civilized world, and close on their heels are tredding American autos, railway supplies and steel frame materials. In the latter class, in fact, we have already begun distancing all competitors to an extent which will shortly include American steel bridges in the "stand alone" category.

The supremacy which we are attaining as bridge-builders is due, as in most of the other instances where we are taking a pronounced lead, to the fact that it is a class of endeavor which we have already developed to a high state of perfection at home. For a decade or so we have been building most of the important steel frame constructions in China, Africa and South America, but it is only within the last few years that we may be said to have successfully made a lodgement within the lines of that last stronghold of conservatism, British India. India has great wealth of coal and iron of its own, and since the completion of its great Tata Steel Works every possible effort has been made to encourage home industry. Rarely indeed does a bid for any work ever go out other than British builders, but when this was repeated the victory of American contractors has been sharp and decisive. The construction of the famous Goktek Viaduct in Burma furnishes an interesting case in

The engineering difficulties in connection with this project were so great, and the structural requirements so much beyond anything that British builders had heretofore attempted to fill, that bids from all the world were called for by the Indian Railway Board. An American firm underbid its lowest European competitor by a large margin, and this, in connection with the record time—seventeen months—in which the contract was completed and the thoroughly satisfactory nature of the work itself created an impression in India which is proving responsible for allowing American bridge-builders more and more opportunity, year by year. During my stay in Calcutta last winter two large contracts were carried out by Americans, and although it caused an unusual amount of "public protest" in the form of letters to the papers, etc., the reply of the Railway Board, stating the difference in the bids and pointing out American pre-eminence in structural steel work, effectively silenced all criticism.

The Goktek Viaduct, which spans the Nam Gokte River on the Lashio branch of the Burma Railway, is remarkable in other respects than having proved the entering wedge for American bridge-building in India. Its 1820 feet of length curve in the form of a rough crescent above what appears at first sight to be a dry jungle valley. Investigation reveals the fact, however, that the viaduct is built upon another bridge—one of natural rock—over a lighter than itself, and that a swirling tropical river, in its rushing cascades, is impounded beneath both of them, a thousand feet below. The scene in the lofty gabled grottoes of the natural tunnel is one of the most weird and unearthly in all of Asia, and would call for the brush of a Dore fitting to depict.

Anglo-Burmese railway men and engineers still speak almost with awe of the organization and systematization of the work of the American mechanical and engineering staff, and especially of the relentless energy, which, undaunted by tropical heat, sickness and the handicaps of lay and untrained native laborers, set a record for achievement that still seems to them to have been created in India.

Armour was always swift to advance men who sought advancement on merit. "What wages?" said a statistician to him, "do you pay to the cheapest man in your employment?" "Twenty-five thousand a year," was the reply. "I pay that sum to the head of the chemical department. Judged by the results to me he is my cheapest employee. I make more money from his improvements and inventions than I do from the labors of a hundred men to each of whom I pay one-twenty-fifth of the amount I pay to him."

The man who can do anything that the world wants done just a little bit better than anybody else may live in the midst of a forest if he chose, said Emerson, in substance, for the world will build a road to him.

The inherent vice and folly of Socialism is that it crushes and destroys that intelligent selfishness that is the stimulus to human endeavor. The individual efforts of men to get on in life have made this nation great and free and prosperous. How desperate and hopeless was the condition of the black slave who could not own the cabin in which he slept, or the coat on his back, or the cup from which he drank. How desperate and hopeless would be the condition of the white slave to co-operative social commonwealth, for he could not select his own employment, or his own employer, or fix his own wages, except by emancipating himself from the thrallidom of the phalanstery of which he was a member.

The rank and file of Socialists are dreamers who hope, through Socialist organizations, to achieve conditions of unselfish brotherhood life, impossible even among angels, for there are doubtless gradations among angels. The leaders of Socialism in this community are rapacious men who are Socialists for revenue only. Job Harriman with \$15,000 taken from the scant earnings of workingmen and women was cheered by hundreds of unthinking followers when he prated about the patriotic and unselfish manner in which he would, when Mayor, administer the affairs of "the whole shooting match," as he called it.

From his kind of patriotism and unselfishness God send us a deliverance.

Complaints at the Times.

(Arl.) April 18.—John Bartender, in the County Sheriff's office, was shot in the head by Peter Popovich, who is the employ of the Old Gold Mine Company, has been arrested on the charge of shooting and is in jail. Verdict was rendered at 3 o'clock yesterday evening by someone in the darkness as he was on the way to the back door. The man had taken a flight of steps, in which he was broken before the ground was struck. Then the robber tore himself off and fled several shots at the police who were following him.

Progress at The Times School of Domestic Science

Conducted by Mrs. Bertha Haffner-Ginger

Cooking as a Fine Art. FOR WOMEN HOMEKEEPERS.

FASCINATING TALK ON A FASCINATING ART.

Open House and Free Lessons
Three Days in the Week, on Mondays, Wednesdays and Fridays, in Afternoon, Second Floor New "Times" Building.

Well, of all the deceived and surprised and chagrined people you ever saw those women at The Times Cooking School yesterday afternoon led the procession.

If there's any one thing that the average housewife prides herself on it's her absolute, unflinching aptness in detecting butter that is strictly up to the mark, or the good butter just

by the smell," says one housewife. "Give me one whiff and I can tell you whether that butter is fresh and sweet and all the rest."

Would you imagine for a minute that 150 women—every one of them excellent cooks and housekeepers—would not only smell, but taste and examine some perfectly pure oleomargarine, and then declare it was fine for country cooking?

That's exactly what happened yesterday. During the demonstration, while the doughnuts were frying, Mrs. Haffner-Ginger incidentally handed out a taste-testing mold of butter and told her to pass it about through the congregation and be sure that every woman tasted it.

In response to such queries as:

"Is it fresh butter?"

"Is it a new brand?" the cook lady was non-committal.

Only on one point, in fact, was she insistent and that was that everyone should taste her exactly what they thought of their butter. Was it absolutely right? Was it fresh and sweet, and was it everything that she, herself, was fooled and had thought it sure-enough butter? They all felt better. If an expert cook fell

unanimous and affirmative answer for everyone agreed that it was as near perfect as butter could be. They all seemed to know where it could be had, and one in the audience expressed a burning desire to buy a pound at once.

After all these opinions had been expressed and not a dissenting voice disturbed the chorus of approval, and after a good deal of questions as to where the butter was made, Mrs. Haffner-Ginger calmly said:

"Ladies, it isn't butter at all—it's oleomargarine." There was a moment of absolute silence, and then a shout of "Oleomargarine!" from the audience.

That's exactly what happened yesterday. During the demonstration, while the doughnuts were frying, Mrs. Haffner-Ginger incidentally handed out a taste-testing mold of butter and told her to pass it about through the congregation and be sure that every woman tasted it.

The Times reporter who had been loud in her acclamations concerning the deliciousness of the butter fell over in a faint and the woman next to her gasped in horror.

"Oleomargarine? I never tasted the stuff before."

Not a woman there, however, but was bold enough to stand by her first convictions and when Mrs. Haffner-Ginger acknowledged that she, herself, was fooled and had thought it sure-enough butter, they all felt better. If an expert cook fell

in the trap, who could expect anyone else to detect it?

"Here is the original package," said the cook lady as she took from the refrigerator a mould of the oleomargarine, which looked just like that which had been subjected to the public test, except that it was perfectly white.

"With every pound package there is a gelatine capsule containing five drops of carrot juice," continued Mrs. Haffner-Ginger, "and all I did was to color the oleomargarine with it, which gave it the natural butter color you saw."

"Where can we get it?" chorused the women. "And how much is it?" replied the cook lady, "but I cannot say just where it is sold here."

A woman in the audience mentioned a certain market and another said she had seen it demonstrated in a big grocery store here, and the women made notes of these two firms.

Putting Puffs in Paste.

It was pastry day yesterday and the audience watched with fascinated eyes as the clever cook lady pro-

ceeded to put the puffs in the French paste. First, she made up all sorts of pastry shells and pastry cutouts from paste she had made the day before; for all good cooks know that puff paste must stand in the refrigerator at least twenty-four hours after it is made before baking. When these were in the oven she proceeded to make the paste and the cook lady, her audience could see how it is done.

The prime principles of puff paste might be mentioned as degrees of temperature. When it goes into the oven it must be cold as ice—but the oven must be hot, otherwise, when you must roll it out and shape it as quickly as possible, not handling it too much with your warm hands.

"Don't ever attempt to make puff paste without putting your warm hands on it," and she deftly folded the paste this way and that, explaining why she went just how the air is folded in.

"There's no baking powder in it," she observed, "and therefore it depends solely on your knack of folding in air to make it flaky and puffy. Every flake is made by the air ex-

panding in the heat of the oven, and it is in the distributing of the sheets of air in folding your paste that makes it puff."

She Made Doughnuts.

After the puff paste was out of the oven Mrs. Haffner-Ginger made doughnuts, frying them in a California fried doughnut cotton oil called "Califene," which worked a charm. Just for a test—for it was the first time the cook lady had ever used this particular preparation—she made some hot, buttery, buttery doughnuts too, and the audience sent through the audience certainly proved the goodness of Califene, which is less expensive and goes farther than lard.

"I have been accused of being extravagant," said the cook lady, "and I propose for a while to show you just how economically I can cook"—hence the substitute for lard and butter.

Another dish was introduced yesterday by Mrs. Haffner-Ginger. This is a cream of tartar powder and, the cook lady explained, if it is used in things that are baked quickly it is just as good as the phosphate pow-

ders, and the results will be nuts certainly nuttier than for they were light and airy.

SPECIAL CLASS FOR
WOMEN. The private classes will be held today, and next week classes will be furnished in general cooking and one for Old and fancy icing.

In the audience yesterday was a woman from Hopkinton, Mass., a resident of the city when she was giving a five years ago.

Two men—clerk in a big year—were among the interested spectators, and they were tips that fall from the cook lady.

NO INFORMATION. If you have any doubt that this season will be a tan shoe season, take a look at the showing of tans in one of the leading shoe houses, within the next few days and you will be convinced.

With a view of exploding the one question that tan shoes were mere

for cutting purposes or for ordinary wear, a number of the shoe houses have made it a point to emphasize the range of styles of tan shoes and leathers, as well as other materials employed in tan shoes at present.

In viewing these, one is almost inclined to think that tan and tan will be used during the coming summer, of course other colors will be used, although this will be a tan season.

Perhahs the shoe houses

will show us that they are aware of the demands which are to be made on tan shoes suddenly, and that they will not be caught napping as, you remember, they were one season when tan shoes suddenly came into favor and the factories were unable to keep up with the demand. It was as though one could be supplied with tan for any and for all occasions, if as may judge by the variety shown.

SHOOTS HIS SECOND
THROWN FROM CAR.

At Manila last Friday, Gen. J. W. Francis fell out of his car and shot and killed a Mexican soldier.

Francis, who is a member of the Congress, was riding in his car by the junction between two roads.

MILITIA ENCAMPED.

This year there is to be an encampment of the National Guard of Arizona, near Prescott, designated as the militia post for Arizona troops, and the camp will be established at Ft. Huachuca, near the southern boundary, for the general was informed.

For several miles from the camp, three men in tents at Camp Huachuca, Arizona, are to be set up or down the color scale to the dresy and dainty tones of so-called champagne, everything possible being done to make the camp a success.

TO MOVE REDUCED.

At United Verde reduction works in the new site in the Verde valley, the general plan is to move the camp generally, and several houses will be moved to the new site.

Seven proposals have been submitted to the Treasury Department offering sites for a new federal building in the same place.

SEVEN RIVER OFFICERS.

Seven river officers have been awarded to the Treasury Department.

WEATHERBEY-KAISER'S.

High-class shoes in tan formed the showing of Weatherby-Kaiser for tan shoe day. While the heavier and more substantial tan shoes are for walking and for street wear, the range of styles for street wear is very great.

CH. April 14.—The mind of R. L. H. Knight has prevented him from being arrested by the State authorities for poaching or illegal fishing, but a conviction was not secured.

It was two days ago that he and his wife, and their two children, were shot in the head and killed while they were fishing in streams where the fish were swimming, also of killing them, have been often received, and it is said the two children have been shot in the head. It is believed that they were fishing right alongside those who were violating the law and their trial will be followed by a number of prosecutions.

FLESH JOB-HUNTERS.

Deputy Sheriff of Garden Grove Camps on Hill and Finally Captures His Man—Bigamist Comes South to Visit First Wife and Three Children—Other News.

SANTA ANA, April 16.—After a year's freedom, Bert H. Marsh, former prize fighter, jail-breaker, and bigamist, is again in custody, and will be taken back to Concourse Wash. to begin his term in the penitentiary.

Marsh's arrest at Corona, Calif., last night by Deputy Sheriff J. J. Turner of Garden Grove resulted in a recital by Marsh of the details of his escape from the Concourse Jail. He had been sentenced to from two to five years in the penitentiary at Walla Walla for bigamy. He has a wife and three children at Garden Grove, in this county, and another wife in Idaho.

Marsh and another man under sentence occupied a cell in the jail. With the head of an ax they pried up the floor of the cell and dug a tunnel eighteen feet long.

Finding that they were to be taken to prison sooner than they expected, Marsh wrote a letter and asked the jailor to make a hole in the floor. When the two men went out of the tunnel, got into a sixteen-foot row-boat and went 300 miles on the Columbia River in it. This was a year ago.

Marsh returned here about six months ago after six months spent in Salt Lake and Arizona, and has been living with his first wife. Deputy Sheriff Turner has been trying to find his wife and dug a tunnel eighteen feet long.

NEWS BRIEFS.

County Surveyor McBride has been instructed by the Board of Supervisors to prepare plans and specifications for a bridge across the Colorado River between Bay City and Sweet Home. These plans are to be submitted to the United States engineer's office in Los Angeles.

To make collection on assessments for street paving due in 1911, Fairbanks has issued bonds for \$100,000.

J. Morris, an Edison company employee, has his arm slightly fractured when a pair of pliers accidentally dropped by another workman from a pole, struck Morris on the head.

BY FEDERAL (WIRELESS) LINE TO THE TIMES]

WASHINGTON, April 16.—Vice-President Marshall in amplying his New York statement that the right to inherit wealth and property is not inherent insists he was not expressing his personal opinions alone, but that he was reflecting the views of others to him "by many honest financiers, lawyers, miners and ditch diggers, men who had men on the street, on trains and trolley cars, and in their homes."

Men are asking, "whether the man who comes to the door for help in his business or for help in his business and the poor man who goes to the workhouse to ask for help."

Men of judgment have expressed to me the opinion that the state were taken advantage of to make all estates over the sum of \$100,000 revert to the State upon the death of the owner—the \$100,000 being exempt—it would be carried two to one."

Mr. Marshall argued that further laws were not necessary for the regulation of great fortunes or of concentrated wealth. He held that the solution lay in the arousing of business men to their responsibilities to the community at large.

As they passed an Italian musician who raised his violin and cried out: "Music is music, I am God!"

The next moment he fell back unconscious. A physician was unable to determine what was the matter with him.

He was brought to the hospital here Monday morning and died the same afternoon without regaining consciousness.

RECALLS BOSCHETTER CASE.

TRENTON (N. J.) April 16.—The court of pardons paroled today Andrew Campbell of Paterson, who was sentenced to the death for the murder of William Boschetter. The application of William A. Death and Walter McAllister, also sentenced to life terms for the same crime, were refused by the court. Repeated applications had been made for clemency for the two principals in what was one of the most celebrated murder cases of its time.

DECIDES TO TESTIFY.

Witness Speedily Changes His Mind After Telling the Court He "Felt Qualified if He Saw Fit."

PORTERVILLE, April 16.—Railroad Commissioner Gordon began here yesterday on the petition of the Southern Pacific for permission to erect a new depot on an up-town site in Porterville. A number of residents of one section of the city are protesting against the proposed change.

Dr. J. E. Daley of Porterville, a witness responded to one of Commissioner Gordon's questions with the remark that he "felt qualified to answer if he saw fit."

Daley's counsel, before the commissioner had time to express any opinion on the witness's reply, urgently advised him to "see fit" which he did.

The hearing will be concluded tomorrow.

The best possible trip is by auto to "Hotel del Coronado."—[Advertisement.]

FROSTED FRUIT HEALTH MENACE.

ONTARIO BOARD HAS A PROBLEM FOR SOLUTION.

Orchardists May Be Ordered to Plow Them Under—Suit to Preserve Growing Windbreak Creates Interest—Committed to Advise on Distribution of Road Money.

ONTARIO, April 16.—Fear that the detrimental effects of last winter's frost may be felt in this city during the summer, on account of the damaged oranges which many ranchers have picked from their trees and allowed to lie in the orchards uncovered, is a matter which is today confronting the City Board of Health and it is likely that some immediate action to dispose of the decaying fruit will be taken. Residents of the orchard districts declare that it is breeding countless tiny flies and other vermin and they have appealed to the authorities to take steps which will eliminate the pest before the arrival of warm weather.

The destroyer Paul Jones went with the San Joaquin to the coast of Guaymas garrison remain in a suburb of the town awaiting the advance of State troops from Hermosillo. Gen. Obregon's forces from Naco advanced to the State capital to participate in the mobilization of constitutionalists at Empalme.

It is noted that even in the down town district fields are far more numerous than ever before and an active "swat the fly" campaign is being planned by the Parent-Teacher associations of the city. They propose to have the students bring out their brooms and sweep the streets for the best practical fly trap, which will be used as a model after which will be built and distributed at a nominal cost over the city.

The suit of P. T. Demens, a Cucamonga man, against the Methodist Church of that place, has been thrown out of court on account of the complaint being in improper form. Some months ago Demens secured an injunction to prevent the church from removing the roots of trees which he claims an interest in and which he values as a windbreak, and people of this section are watching the outcome of the case with great interest. The complaint is to be amended and the case heard at a later date.

A committee of freeholders composed of Henry White, Dr. J. B. Harvey, J. C. Wright and V. Lawrence, which will act as an advisory committee to the City Council in the distribution of the \$75,000 road-bond fund, meeting of citizens held at the Ontario Chamber of Commerce.

M. S. Clark, No. 273 Castro street, the chief deputy, was knocked off of the boat after he had shot one man in the neck and effectively used his teeth, feet and hands on others.

For almost an hour he kept himself afloat and was picked up by a fisherman.

The surviving members of the gang were arrested as they tied up their boat to Malaga's wharf. They had a grewsome cargo. In the bottom of the boat were two bodies, one of their fellows and Reynaud. Two others of the gang were badly injured.

I.W.W. RIOTING AGAIN.

Non-Workers in Mulford, Mass., Indiana, Policing in Strike Outbreak.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES)

SAN FRANCISCO, April 16.—Industrial Dispatch.

A small power launch of San Quentin this afternoon between two deputy fish and game wardens and five fishermen known as the Balester gang.

Ernest Reynaud, deputy warden and marine reporter for the Merchant's Exchange, is dead. Before passing, however, he exacted the life of one member of the gang in payment.

M. S. Clark, No. 273 Castro street, the chief deputy, was knocked off of the boat after he had shot one man in the neck and effectively used his teeth, feet and hands on others.

HOUSE EXPELS PROGRESSIVE.

New Hampshire Lawmaker Who Deserted Republican Party Charged With Offering to Sell Votes.

(BY F. P. NEHR WIRE TO THE TIMES)

CONCORD (N. H.), April 16.—Charges of offering to sell his vote preferred against Representative Clifford L. Snow of Manchester were upheld by the lower house of the New Hampshire Legislature today and he was ordered expelled. The vote was 177 to 119. Party lines were eliminated in the balloting. Snow was eliminated in the balloting, but afterward joined the Progressives and in the last few weeks of the senatorial contest had voted with the Democrats. The explosion is the first in the history of the New Hampshire Legislature.

The committee that investigated the charges was unanimous in deciding that the election of a United States Senator was without evidence of any actual sale of votes.

SMALLPOX AT GUAYMAS.

Plague is Reported Raging on Bay But No Americans Have Been Affected.

(BY F. P. NEHR WIRE TO THE TIMES)

NOGALAS (Ariz.) April 16.—Although no more meningitis has developed on the cruiser California, smallpox is reported raging on the shore of Guaymas Bay. As yet, the plague has not affected American residents at Empalme.

The destroyer Paul Jones went with the San Joaquin to the coast of Guaymas garrison remain in a suburb of the town awaiting the advance of State troops from Hermosillo. Gen. Obregon's forces from Naco advanced to the State capital to participate in the mobilization of constitutionalists at Empalme.

Mr. Wad Sure Has Got a Kind Heart!

By Gale.

The Champion Selects Cross for His Next Opponent.

HITCHIE PICKS LEACH CROSS.

Tours are Met, He Will Get July Fight.

Him Says They Go East for Match.

Theatrical Work Ends in Next Month.

A following letter, setting forth in place of Willie Hitchie, has been issued by the sporting editor of The Times. It was written by Billie Nolan, manager of the lightweight champion.

WINNIPEG, April 16, 1912.
Ward Harry! Just a few lines to you now how we are doing, as we are still here now on foreign soil in Canada, and it must be said that the champion is being accorded a very hearty welcome, as in passing the houses to the north, Mr. Hitchie meets and the like to him to see their men pitted against him.

Miss Katherine Harley of Redlands defeated Mrs. H. D. Requa by 5 up and 4. Mrs. Henry V. Eliot of Annandale defeated Mrs. J. V. Eliot of Annandale by 4 up and 2. Mrs. E. R. Williams of Annandale defeated Mr. Guy Cochran of Los Angeles by 3 up and 2. Mrs. Frank Griffith defeated Mrs. Marion Clark by 1 up.

Miss Marion Clark of San Gabriel and Miss Katherine Wright of Annandale tied for first place in the consolation event, with a net score of 95 and will play off the deciding match today.

MISSES HARLEY OF COURSE.
Of course Miss Harley is the best player in the tournament. Likewise she is supported with the charms of that influential four-leaved clover on her stocking, but all the same we had to give her a hard time, and she did really well yesterday—not for her.

Those famous drives of hers, which clear the bunkers so neatly and enjoy such long runs, were not in obtrusive evidence. But she did better on her own best game, so the star-lady was not caught napping and managed to maintain her prestige.

Miss Henry Van Dyke was, on the other hand, playing very well, better than all the others who have done so far in the tournament. There was a steadfastness and assurance about her strokes that bodes ill for Miss Harley today. Mrs. Eliot made a good fight, and there was no evidence that she will gain her championship form in the near future, but she was certainly out-played by Mrs. Van Dyke yesterday.

Mr. E. R. Williams had a splendid match with Mrs. Guy Cochran, in which both played well, making their best medal score of the tournament. She will meet Mrs. Frank Griffith today in the semi-final.

A number of the young players have promised to support an event at the Victoria Club, Riverside, next Saturday, if one is arranged. Communications are being exchanged on the subject—the Victorians have been wanting to have their association event for some time.

Which reminds me that they had on the last night and followed club dances at Riverside on Thursday, when a dozen friends went up from Santa Monica alone and many members entertained out-of-town visitors for the occasion.

The Southern California championship for the women players is also being discussed. It will probably be arranged for Annadale the first week in May.

In the meantime the new Midwick Country Club at Ramona will hold its opening reception on Saturday afternoon and several dinner parties are being planned for the evening.

Jim Gets Another.

M'CARTY DEFEATS FLYNN IN TAME SIX-ROUND GO.

[BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

PHILADELPHIA, April 16.—[Sporting Dispatch.] Luther McCarty did not show much science in his fight with Jim Flynn tonight at the Olympia. True, he won handily but the exhibition was far from satisfactory from the standpoint of a heavyweight who aspires to the premiership.

Flynn took severe hard punishment. In fact, some of the blows he could have avoided had he cared to, but while the blows were many that he landed, they did not hurt him apparently and at the close of the six rounds he had not been badly damaged.

In fact, Flynn showed in the fourth round that he could stand up as well as his opponent and gave Lute two or three nasty smashes that made the champion wince. Had it not been for his better judgment and his reach and general physical appearance, McCarty would not have fared so well.

On points there was nothing else to it but McCarty, but the fight at its best was a tame affair.

CLASSY SPORT IN BEAR VALLEY LAKE.

Gus Knight has come down from his lair at Bear Valley and reports that the fishing in the big lake was never better than at this time. There are plenty of steelhead trout and they are comparatively easy to catch.

However, the only way that one can get to the lake by an auto is via Victorville. On the Clark's road in Santa Ana one must use narrow trails for the drifts in some places are twenty feet deep. There is little doing in the fishing line on Bear Creek below the dam, for the water seems to be too cold. Up in the lake, one can find all the sport he wants. There are even plenty of ducks there, but of course it is a game to shoot these now.

WORK MONOTONOUS.

The work of McCarty was monotonous. He seldom used anything but a straight right hand and while he landed two and three blows without a return he never varied his attack. Flynn rushed to a clinch at the start and when the broke like a bolt he was right to the jaw and then swinging for the freeman's head. Flynn never dodged, but took the blows and came back smiling and banged three lefts to the head. This pained Mac and he shot two rights to the mouth, one of which Flynn was more and he then hit him in the wind and banged away at the head and body.

In the fourth round Flynn led with a left to the cheek and both missed.

Well-directed blows and McCarty's summer Flynn from the south.

The fireman got busy and did his best work of the fight. He swung both

lefts to the head and both missed.

Jack Root Happy.

Jack Root has quit the prize ring forever and is now in business in this city. He is interested in the purchase of a big tract of land down the coast and expects to be a millionaire some day on spindles cactus and other things.

ANDERSON NEEDS MORE WEIGHT; K.O. A FREAK.

BY DE WITT VAN COURT.

BUD ANDERSON and Knockout Brown have had their second battle in a twenty-round go at Van Court.

The result was nothing but what was expected from the majority of the fans. Bud won by a clean knockout. But there was nothing startling or new in the bout, and it was not productive of anything sensational in either of the fifteen rounds that were fought.

Bud Anderson entered the ring in 50 per cent. better condition than the last time they met. But this cannot be said of Knockout Brown.

It was a question of weight, with me. Joe Gans made a ride-weight for Battling Nelson and he won. But Gans was not at his best in that contest. It was just as with Knockout Brown, but he could make the weight, but his weight has been beaten at a heavier weight.

Perfect condition means that a fighter must enter a ring and have all his strength, speed, hitting power and judgment of distance. Anderson has all this? I do not believe he did and will tell you why.

He was much better physically than the last time he met that tough Dutchman, but was a long way off from where he would have been if he was not compelled to make such a light weight.

Making weight for a fight is not always good, if he is in good condition. There are many who think a fighter can make weight and enter a ring and save his forfeit money, but this does not signify that he is in the best of condition.

The only reason that Bud showed was his ability to hit. Right here I will say that he is one of the best and hardest hitters I have ever seen and one of the cleanest when he does a punch. He did not land all of them by any means. He is a man that should have landed, and it was owing to the fact that he was not what he might have been. His punches are great, if he only knew how to take advantage of them. But never in the lightweight class. For the sake of an argument I will admit that I was all wrong in my judgment as to his condition.

Was Bud Anderson fast enough to knock out Knockout Brown? I will say that he is one of the best and hardest hitters in the lightweight class to a punch? Was he fast enough to take advantage of the opportunities that were offered him to finish "Knockout Brown"? Was he fast enough to get away from a blow by using his feet to do it? Did he judge his distance so he should?

I will leave all this to your judgment.

K.O. IS A FREAK.

Knockout Brown is one of the greats of the fighting game. He is an awkward boy, full of aggressiveness, but he has not the finesse of every body he meets just the same. In other words, he is a human punching bag. He has won most of his fights in the early rounds before they got on to his style and has been several good men before they got on to him. But in looking over his record we find that most of his wins are the first fight by a knockout, all inside of six rounds. But the first man he met in a twenty-round go, which was Joe Rivers, he lost by a knockout, and the third the same way to Bud Anderson.

Brown has a clean boxer and a clever fellow who has the nerve to lead with his right hand at Bud.

FRED KELLY, THE BEST YET.

Fred Kelly, the wonderful hurdler and all around athlete of the University of Southern California, was yesterday elected captain of the 1914 varsity track and field team. There was no other competitor in the field as all the members of this year's team felt that Kelly richly deserved the honor.

Kelly has been the most consistent hurdler in the history of athletics in the United States. After winning the world's title at the Olympic games, he won every race entered this season and twice tied the record for the high sticks. He also has won every low hurdle race entered, besides winning the shot and running a wonderful lap in the relay on several occasions.

Kelly now stands out as one of the foremost athletes in the world and as the greatest hurdler of the decade, according to James E. Sullivan, and no man could ask a better compliment.

THURSDAY MORNING

Ready for Play.

HUNS AND TIGERS TO BATTLE NEXT SATURDAY.

BY PAT MILLIKEN.

THE Huns are going to be something poppin' when Occidental and Pomona get together on the diamond next Saturday afternoon. It was once said by some of our good forefathers that "old foes make the worst woes." It will certainly be true in this case.

Occidental has already clawed these Huns, for a victory in both football and track, and they are going out firm in the belief that this is their year. They have one grand ball club. Whether or not they can beat these "bright and shining" from the hill country—that is the question," as old Jimmie said.

There is nothing upon which to base an opinion as to who will be the winner. It ought to be a battle all the way and the club having the strongest finish should come out in the lead. Taking previous games as a criterion, Oxy figures to win. But dope never did win a ball game. Pomona was booked to wipe up Baer Park and the surrounding country with the Tigers last fall. They tried, but that is as far as they got with the job.

Occidental has beaten Redlands, a team which handed a nice little brown package to the Huns just last Saturday. However, none of us are worried over that. Pomona went in about half the ball club meaning Kingsman. He will be back on Saturday and will very likely make his presence known.

The Tigers had a nice afternoon's workout when they handed the Poets from Whittier a life-and-death beating. Good old wood abides the Whittier club; in fact, they looked capable of beating the Poets three times a day, indefinitely. I do hope they will have no such frolic Saturday, for it is sure hard to score a game when there are so many men chasing them around the bases.

Occidental is almost sure to start the great "Duke" Walk against the Rabbits. When he is good, he is there a thousand, and it seems to be half of his to be bad in the season. Walk does seem to me to have the best control in the world, but I have never seen him when he was pushed, and so cannot judge.

It has not been settled yet who will start the game from the firing line for Pomona. Personally, I have no idea. Becker, the boy, may see battle of the southsiders. I think Becker is good enough to hold his own in the battle, even if he doesn't have quite the "rep" of his illustrious opponent.

In Daniel's start the old ball running. It is about as good as well. He handed these Tigers a good, sound drubbing when he worked against them last year. They say he is better than ever. I am willing to take "Dutch" Shurt's word for who is the man, but I am not.

Getting back to the starting point. I look for a pitcher's battle from start to finish. It will be every man for himself.

TIGERS MEET HUNS ON COURT TOMORROW.

Tomorrow afternoon the first matches of the Occidental-Pomona tennis tournament will be played on the Claremont courts. At the present time it looks like a toss-up between

For particulars concerning "The Times Modified Marathon" consult Page 2, Part II.

FIRST ROUND OF THE NATIONAL TENNIS PLAY.

(BY A. P. NIGHT WIRE TO THE TIMES) NEW YORK, April 16.—Only one match was played in the first round of the national tennis championship in doubles at the Racquet and Tennis Club today. Jay Gould and W. H. T. Huhn, representing the Philadelphia Racquet Club, defeated R. D. Wrenn and L. Waterbury of the local club in the three straight sets, 6-3, 6-4, 6-2.

Milton R. Clegg and George M. New York won by default from R. K. Cassatt and Edgar Scott of Philadelphia, and George R. Fearing and Joshua Caine of Boston for failed to Wilson Potter and George H. Morrison of Philadelphia.

The second round will be played tomorrow.

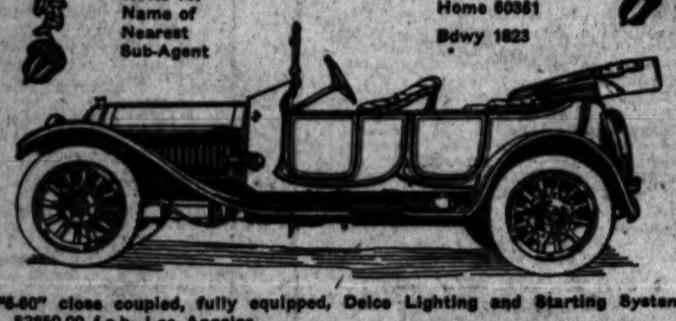

HAVE you personally, from actual experience, judged the relative merit between the 4 and 6 cylinder car? We would be pleased to demonstrate and point out the advantages of the "6" over the "4". We have both models. Let us show you.

JUST WHAT YOU'VE BEEN LOOKING FOR

Tilton's Auto Grease

The only grease made from pure Paraffine oil. (Same as that you use in your engine) and the only metallized grease on the market.

Will go three times as far as any other grease.

Contains no residuum or animal fat filler.

Positively will not "thin up."

Cannot turn rancid.

Will not melt, like other greases.

Not affected by heat or cold or water.

Gives bearing and gears a film that always remains.

Costs no more than inferior greases.

What More Could One Ask?

You will use Tilton's Grease eventually. Why not save trouble, worry and money by beginning now? Satisfaction guaranteed.

SUMMARY OF THE DAY.

The City Council officially canvassed the bond election vote yesterday. The canvass showed 55,195 ballots cast. A conference of officials was held during the day to discuss what steps shall be taken to protect the work on the aqueduct power project, and the Council may be asked to advance money for this purpose.

An announcement was made to the Utilities Board that the Pacific Electric is shortening time by alternate street car stops on the Hollywood line and will adopt it for the South Pasadena line. Hollywood citizens protest.

Sealer of Weights and Measures Harshman presented to the Public Works Board yesterday his plan for a series of public scales in various parts of the city.

Demand was made upon officials yesterday for the restoration of land held for the proposed municipal railroad. Frank Quinn makes the demand, and others will follow his course, as the dismantling of the municipal railroad holds kills that project for the present.

At the City Hall.

OFFICIAL COUNT OF BOND VOTES.

COUNCIL CANVASSES RETURNS FROM ALL PRECINCTS.

CONFERENCE HELD OVER THE POWER-PROJECT SITUATION AND CITY MAY ADVANCE MONEY TO CARRY THE WORK ALONG—ALTERNATE CAR STOPS SAVE TIME ON RUNS.

The City Council met in adjourned session yesterday afternoon to canvass the vote cast at Tuesday's election on bond propositions. The canvass was completed late in the afternoon, and a formal resolution was adopted declaring the result to be as follows:

Proposition No. 1—\$6,500,000 for acquiring or constructing a power distributing system; yes, \$1,045; no, 31,249.

Proposition No. 2—\$1,500,000 for the Pacific Canyon and city trunk line; yes, 28,902; no, 48,491.

Proposition No. 3—\$2,000,000 for the Chatsworth, Mission and Glendale lines; yes, 21,460; no, 28,290.

Proposition No. 4—\$2,500,000 for the municipal warehouse on the Pasadena, Glendale-San Dimas high line; yes, 15,882; no, 24,752.

Proposition No. 5—\$2,500,000 for continuation of harbor development; yes, 47,374; no, 51,31.

Proposition No. 6—\$1,000,000 for a new fire station; yes, 16,105; no, 24,296.

Proposition No. 7—\$1,000,000 for a municipal railroad; yes, 22,055; no, 27,271.

Proposition No. 8—\$600,000 for payment for the State Normal School site; yes, 16,105; no, 24,296.

The total number of ballots cast at this section was declared to be 55,195.

A conference was held at the office of the Aqueduct Bureau yesterday between members of the Public Service Commission, Commissioners Henderson and Graham, Chief Engineer Mulholland, Special Counsel Mathews, Commissioner Johnson of the Board of Public Works and Commissioners Whiffen, Betkowski and McTigue. The commissioners were called to discuss the situation regarding the uncompleted power project.

Plans under which this work has been progressing have been made in the assumption that money would be available to complete the entire project, and as a result the city found itself confronted with a situation where considerable loss would be sustained by deterioration and by the action of the elements unless protection is given.

The decision was reached that certain protective work is imperative and must be undertaken at once, and that such further progress of the project should be undertaken as may be possible through means that can be used.

This work applied to the upper and lower power tunnels in San Francisco Canyon, where the surge chamber must be concreted in order to prevent it being filled with sediment. \$200,000 of the lower tunnel must be driven and concreted, machinery must be housed, etc.

The aqueduct bureau agreed to pay to the power bureau \$600,000 as its proportion for the construction of the tunnel, \$200,000 to be paid in cash and \$200,000 from proceeds of salvage miles. The aqueduct bureau has, in fact, paid to the power bureau a little more than \$15,000, leaving approximately \$450,000 to be provided.

A further conference was proposed that careful estimates be made by the Public Service Commission as to what work must actually be done to safeguard the city's interests and Electrical Engineers Seatington was directed to make a statement of what is actually needed on the power project. A statement of financial resources, in the way of salvage, etc., is to be presented, and a further conference will be held today to consider this.

It is probable that the City Council will be asked in advance money in sums of \$50,000 from the funds at its command, to be replaced by salvage sales as they can be made, so that the necessary work on the power project may be continued without delay.

COMMANDS SYSTEM.

ALTERNATE CAR STOPS.

A statement from Traffic Manager Pontius of the Pacific Electric was presented to the Public Utilities Board yesterday, in which the statement that the alternate car stops at alternate streets on the Hollywood line is working well, and that whereas crews were from five to seven minutes behind schedule heretofore, now they can keep to schedule and that an approximate saving of ten minutes is effected by the new system. Pontius stated that schedules are being prepared for the purpose of putting this system into operation on the South Pasadena line.

Pontius advised that the Utilities Board stated that he had been informed that the Los Angeles Railway Corporation is planning to adopt this plan on some of its lines, but that he also had information that forty citizens of Hollywood had made protest to the City Council at that place against the system, and were circulating petitions against it. Commissioner Betkowski suggested a public hearing to discuss the system.

WORLD MAKE BIG FILL.

The Los Angeles Railway Corporation asked the Board of Public Utilities yesterday for a permit to abandon its franchises for its line on Sunset boulevard from Hill street, to the former freight depot and of the spur tracks terminating there. The Southern Pacific asked for a permit to construct a compressed air pipe in Alameda street, to furnish air for car cleaning.

Chief Deputy City Clerk Carroll received from the Civil Service Commission yesterday his rating on the examination for this position, this giving him a standing of 91.1.

LARGE ESTATE.

STIPULATION FOR DAUGHTER.

The estate of Elizabeth Baldwin, who died at Ocean Park April 24 last, is valued at \$102,377, according to the petition for the probate of the

temporary use, so that they may be used for the unloading of materials for the big fill there. Chief Engineer Kuhrt stated that this would be of mutual benefit to the corporation and the city, as it would have enough material to unload during the next three or four months to possibly complete the fill to the entire width of the street. The subject was referred to the City Engineer for a report upon the grades.

Temporary scales were set up for the unloading of materials for the big fill there. Chief Engineer Kuhrt stated that this would be of mutual benefit to the corporation and the city, as it would have enough material to unload during the next three or four months to possibly complete the fill to the entire width of the street. The subject was referred to the City Engineer for a report upon the grades.

Sealer of Weights and Measures Harshman presented to the Board of Public Works yesterday his plan for the location of public scales, to be operated under the inspection of permits, covering points within the city that will be most convenient to the bulk of the traffic requiring the weighing of loaded wagons.

Harshman proposes that locations be selected to include one off of the street near Pico Heights; off of West Jefferson, near Western avenue, to serve the southwestern section of the city; off of Vermont and Shatto, avenue to serve the eastern and greatest portion of the south west; off of Shatto, Main to Moneta, to serve the southern district; off of Central avenue, near Shatto, to serve the northern district; off of First and Chicago street, to serve the northeast.

The Board of Public Works instructed Inspector Hansen to investigate the proposed locations and report upon their feasibility. It is proposed that the scales shall be located on a paved street, but must be on the side streets, and in no case where the street is less than sixty feet in width.

CLOSE WATCH ON AUCTIONS.

The Police Commission is continuing its watch to protect the public against fraud at auctions, and gave evidence of this yesterday, when it cited two auctioneers to appear before Judge Price yesterday as opposing parties in litigation to recover \$1,000 deeded by Denker to her. The trial promised to be bitter. But in order to avoid exposing a family skeleton to the public, particularly to bring father and daughter together, Judge Price directed the litigants and their attorneys into chambers for a conference.

The result of his peace overtures was a compromise. Mrs. Muller agreed to return to her father 169 acres of mountain land, and Denker said she could keep several lots.

The trouble arose when Denker, thinking he was not going to live, deeded the property to his daughter. He went to a hospital and recovered. He wanted his property back. Mrs. Muller refused part with it, claiming it was a gift, and they drew apart until Denker finally resorted to the courts.

JUDGE EFFECTS A COMPROMISE.

BRINGS FATHER AND DAUGHTER TOGETHER.

AMUSEMENT MAN, CONTESTING ACTION FOR DIVORCE, ARGUES THAT WIFE'S BAD COOK—COURT NEWS.

Alexander Danker and his daughter, Mrs. Louisa F. Muller, were at sword's edge when they appeared before Judge Price yesterday as opposing parties in litigation to recover \$1,000 deeded by Denker to her. The trial promised to be bitter. But in order to avoid exposing a family skeleton to the public, particularly to bring father and daughter together, Judge Price directed the litigants and their attorneys into chambers for a conference.

The result of his peace overtures was a compromise. Mrs. Muller agreed to return to her father 169 acres of mountain land, and Denker said she could keep several lots.

The trouble arose when Denker, thinking he was not going to live, deeded the property to his daughter. He went to a hospital and recovered. He wanted his property back. Mrs. Muller refused part with it, claiming it was a gift, and they drew apart until Denker finally resorted to the courts.

COURTS DRY QUERY.

ATTORNEY GEORGE A. HUPP, representing J. J. Haggerty in a suit brought by W. C. Elvilly growing out of the sale of business of the Paris Clock, Suit and Millinery House, in which both are stockholders, took a chance on being held in contempt yesterday.

Attorney W. A. Bowen, counsel for McElvilly, asked Hupp to produce a letter addressed to him, written by an agent to a San Francisco house.

Bowen believes this letter has an important bearing in the point raised by McElvilly, that Haggerty and others were endeavoring to wreck the business of the J. J. Haggerty Co. by producing a letter to himself.

At the conclusion of the conference Hupp asked the court to defer his ruling until a trial date was set. He stated that his desire is to go over the records. The court dryly asked if Hupp did not rather desire this time to see whether he would obey the order. Hupp made vehement denial. He was granted the extension. Bowen was instructed to state his position with reference to the trial date. Hupp was directed to produce a statement made to him this morning. A contention which was already pending against Hupp, growing out of a statement made to the court earlier in the proceedings.

NEW TRIAL DENIED.

JURY'S VERDICT STANDS.

The motion for a new trial in the \$100,000 libel suit of Nathan Newby against John W. Brennan, owner of the John W. Brennan Company, was overruled by Judge Dooling yesterday. The suit was tried by a jury before Judge Dooling last February. The articles complained of by Newby, who is an attorney, were directed to the criminal alteration of a public record at the request of Newby. The jury brought in a verdict for the Times, on every count.

Newby, through his attorneys, E. A. Morris and Lewis R. Woods, moved for a new trial on the ground that the evidence was not sufficient to justify the verdict, and alleging errors in law by the court. The motion was opposed by Attorneys W. J. Hunks and G. J. Denner. The attorney general heard the case and denied it. The trial was submitted. His decision against Newby was prompt.

Robert Prechard was granted a restaurant liquor permit for the Cafe Martini in the Nadeau Hotel building. Mortarotti & Iltiso were granted a restaurant liquor permit for No. 627 San Fernando street. June Toy was allowed to transfer his restaurant liquor permit from No. 2071 East First street, to No. 339 on this street.

RESTAURANTS RESTORATION.

One of the first echoes of the defeat of the proposed bond issues occurred at the City Hall yesterday when Frederick Quinn, of the City Hall, appeared to argue the city officials to transfer the land in the southern part of the city on which it had an option as a part of the proposed municipal railroad to the harbor. The option has expired, thus making it necessary to obtain a new title to the land.

Quinn wants the use of his land. Eight other property owners in that vicinity are in the same position. Quinn will make a formal demand upon the City Council to give him a trial of the land in question. This is the site where the Mayor a few months ago, at the expense of considerable perspiration and physical exertion, turned down and dug up, some trees planted and a fence was erected.

CITY HALL BREVITIES.

The Police Commission yesterday voted to open to new permits for the sale of liquors, the block on South Spring street, between Eighth and Ninth streets. This was asked for by a majority petition.

D. C. Craig was reduced from detective to rank of patrolman during the Harper administration by Chief of Police Kern, appealed to the Police Commission yesterday for reinstatement. Craig asserted he was never dismissed by his attorney, "because he was made a patrolman because he knew too much and was too active." Chief Sebastian stated that Craig is a good officer, and the Mayor expressed himself as being willing to reinstate Craig, if he is not too active.

Craig agrees to waive the right to demand any difference in salaries of the two positions during the time he has served as a patrolman. The case is under advisement.

The main question in the suit, aside from Craig's alleged desertion of his wife, is Mrs. Crisler's claim to have given him \$600, which she says he had not received back. Crisler produced a check drawn to his wife for \$600, which had been cashed. This check was not indorsed, and Mrs. Crisler denied having seen it.

Mrs. Crisler took pride in herooking. She declared no matter how hard she tried to please her husband, he found fault with her. Neighbors called to the rescue to testify that Mrs. Crisler was a fine cook. She knew because she had eaten meals at the Crisler home.

Mrs. Crisler offered to produce other friends who were en route to testify to the same end, but Judge Umiker was apparently satisfied that the cooking question was only a minor issue anyway.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

SHIPPER LOSSES. Trainmen from El Centro to San Bernadino were witness to the suit of J. L. Davis against the Southern Pacific to recover \$500 damages for the alleged rough treatment of two carloads of cattle shipped from Surf to Imperial Valley. The action was tried in Judge York's court and judgment given yesterday for the Southern Pacific. The trainmen testified the cattle were in poor shape when received.

MARRIAGE IS SACRED.

PORTERVILLE, April 16.—Plans of the members of the Miners Improvement Club for a public wedding as one of the features of the May carnival received a rude shock this afternoon when the Ministerial Union strongly protested against the proposed attraction. It was stated positively by none of the ministers of Porterville that a clergyman for a marriage of this character.

Mary S. Hamlin, and relatives, were made by Mrs. Baldridge, in case of the death of her husband. The daughter was to receive one-half of the estate after certain bequests were paid. In a codicil she gives to the daughter, provided Michael does not survive, \$10,000.

It was therefore ordered that the motion for a new trial, heretofore and heretofore, be denied.

YEARS OF ABUSE.

STARVING FAMILY RESCUED. James T. Dooley, formerly a stockholder of the Luna Park Amusement Company, tried to get his son released from the care of his wife, Lillian, reputation as a fine cook, yesterday in contesting her action for divorce on the ground of desertion.

Blumberg and three of his children, the youngest a babe of months, were brought into Juvenile Court yesterday, the misery of her life showing in every lineament of her face.

While officers are searching for Blumberg with a woman charging him with failure to provide, Mrs. Blumberg and the children will be at the Trueblue Home.

Judge Wilbur made an order on the county for their support at the rate of \$11 a month for each child.

COURTHOUSE NOTES.

WHAT HE SAW. Judge Willis concluded yesterday to take a little time to study the testimony brought out in the divorce suit of Julia A. Latimer against her husband, George Latimer, a truss salesman. He took the matter under submission.

Latimer testified he had seen George Wilson, who boarded with Mrs. Latimer, helping Mrs. Latimer with the dishes.

Wilson, according to Latimer, was the husband's privilege of placing an arm around her waist.
